

A BRIEF HISTORY OF

MVC WEB APPLICATION

DESIGNING MVC APPLICATION FOR
INFORMATION AND TECHNOLOGY COLLEGE
WITH TEAM OF 3 MEMBERS

WEEK 19

Familiarise with GitHub operations such as Pushes, Pulls, and Synching via Visual Studio

WEEK 20

Introduced delineation with MVC project in visual studio to start working on it. Uploaded it on GitHub.

WEEK 21

Worked on GitHub Rep readme, issue, pull request, contribution templates, and wiki

WEEK 22

Added coursework on wiki for proper project explanation. Individual wikis were modified and team planned on diagrams.

WEEK 23

Its planned that team will upload the diagrams and execute effective methods to enhance overall web app structure.

WEEK 24

Working

WEEK 25

Working

WEEK 26
