A BRIEF HISTORY OF
MVC WEB APPLICATION

DESIGNING MVC APPLICATION FOR INFORMATION AND TECHNOLOGY COLLEGE WITH TEAM OF 3 MEMBERS

WEEK 19
Familiarise with GitHub operations such as Pushes, Pulls, and Synching via Visual Studio

WEEK 20
Introduced delineation with MVC project in visual studio to start working on it. Uploaded it on GitHub.

WEEK 21
Worked on GitHub Rep readme, issue, pull request, contribution templates, and wiki

WEEK 22
Added coursework on the wiki for proper project explanation. Individual wikis were modified and team planned on diagrams.

WEEK 23
The team uploaded the diagrams and execute effective methods to enhance the overall web app structure.

WEEK 24
Team modified wiki for better understanding and slight fixes.

WEEK 25
The team worked and planned the diagrams. System analysts uploaded their draft on the diagram's page.

WEEK 26
Working

WEEK 27
Working

WEEK 28
